QUALITY ASSURANCE

Tested standards. Proven reliability.

Our high-quality products are "Made in Germany" and are manufactured by motivated and qualified employees in compliance with the requirements of our integrated quality management system.

CERTIFIED SYSTEMS. CONSISTENT QUALITY.

The internationally recognized quality management system anchored in our company guarantees consistently high product quality. We meet the highest requirements of the automotive industry through certification according to IATF 16949. This also includes certification according to DIN EN ISO 9001. The documentation as well as the customer-related processes and supplier relationships are of particular importance. The constant analysis and improvement of the processes are a matter of course for us and for the mutual benefit of us and our customers. Certification according to DIN EN ISO 14001 confirms that we meet the requirements for a safe, health and performance-promoting work environment and that we bring environmental protection to life. With the accreditation according to DIN EN ISO / IEC 17025, the competence of our test laboratory is regularly checked and certified.

OEM APPROVALS FOR RAVENOL

The consistently high quality meets the manufacturer requirements and specifications of the automotive industry worldwide. The international approvals from leading OEMs (Original Equipment Manufacturers) confirm the high quality standard of our products. We have approvals from the automotive industry for our products from major engine manufacturers such as

and many more

Our lubricants meet the highest specifications and are listed by the American Petroleum Institute (API) and the National Marine Manufacturer Association (NMMA). We are also represented in the market with FIA-CIK approvals in the field of racing kart lubricants. The DEKRA consumables list, which is updated every year and in which our products are featured, round off our profile.

RAVENOL Group: Ravensberger Schmierstoffvertrieb GmbH seit 1946 und Deutsche Ölwerke Lubmin GmbH seit 2013
